Therapeutic Music Intervention

for Autism Spectrum, ADD, ADHD, Learning Disabilities, Down Syndrome, Schizophrenia, Bipolar and other Developmental Disorders

Presented by

Dr. Michael G. Levykh, PhD and Ella Levykh, MMEd

DATE: Thursday, May 15, 2014, at 7 pm till 8:00 pm

*WHERE: Library, Williams Van Horne Elementary School
Vancouver, BC*

This Workshop Will Cover:

- Language Comprehension, Acquisition and Production
 - Listening Skills, Learning and Memory
 - Respiratory Related and Stress-Related Issues
 - Socially Appropriate Behaviour
 - Social Emotional Literacy
 - Identity, Personality, Character Development
 - Self-Awareness, Self-Esteem, Sense of Purpose
 - Whole Brain Activation and Brain Plasticity
- What Parents Can Do at Home to Help Their Special Needs Children

Therapeutic Music Intervention was developed by Michael and Ella Levykh based on: (a) their professional training, extensive European and North American education, experience, and expertise; (b) scientific findings of Dr. Tomatis—a pioneer in sound therapies for the autistic ear; and (c) their personal experience as the parents of a child diagnosed with developmental disorders.

Pre-Registration is Required:
